## **THE STEEL MILL**

**January 2007**

Dear Shooters:

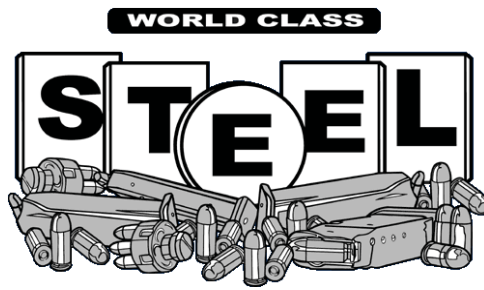

Well the holidays are over and 2007 started out with some great weather for us all, I hope everyone was able to enjoy a few of the bonus days on the range.

The 2007 season is here and the work of making 2007 the best season is upon us. John P. and I traveled to the Shot Show held in Orlando, Florida to personally thank all of the sponsors that have supported World Class Steel's major matches for 2006. The reception we received for our efforts were more than could be imagined. World class Steel would like to thank all of them here in this writing and ask that when you are at an event or out on the web please say a few words or write a short email thanking them for their support. With out each and every one of them the quality of our events would not be possible. And to all of you who attended our matches and who have tirelessly helped throughout the 2006 season a thank you to all.

John P. has hit the ground running for the 2007 season; he is in the process of getting out our thank you notes to the sponsors and setting up the matches for the year, with the 2007 Speed on Steel match taking up most of his time. Matt has been working on the website and Chris is tweaking the scoring program. Thanks to them all for their work.

World Class Steel will start shooting in the month of April as we announced at the end of the season. We might move it up to March if the weather cooperates and the guys agree to start the season early. Chris and Matt will send you all an e-mail if we do start early. WCS Speed on Steel 2007 will be held on June 8th and 9th, the stages will be fast, furious and challenging chosen from WCS stages listed on the website. The 7 chosen stages will be announced early in the spring to give you all time to practice them. Sunday, June 10th will be our traditional "Side Match Sunday" with stages to challenge the best of the best. Also, we will be using the new scoring program and will have the scores for the Pistol match posted by noon on Sunday with the results being final one hour later. Plan to attend the Sunday Side Matches, shoot and check out the scores.

The applications for the match are out and available, please sign up early and remember to put a note on it for your size, we might be going with a size dependent promotional item and we need your information and for you also to sign up early to facilitate ordering of the product.

STI will again be one of our match sponsors along with Mike Gibson Manufacturing as of this date. STI has also made the match part of their contingency program for 2007. If you are registered with STI, wear one of their shirts and either win High Open or High Iron you will be receive an award from them. Many thanks go out to them and MGM for their years of support.

For all who would like to help at the matches and be a WCS Range Officer we will be holding two more RO courses at the indoor range on March 8<sup>th</sup> and also on March 15<sup>th</sup>. If you are interested in taking the course please contact John P. or myself. There are many great reasons to become a WCS Range Officer.

The dates for the World Class Steel "FIELDS of STEEL" match will October 6th and 7th mark it on your shooting calendar. More information will be posted in the coming months for it.

That is all for now, stay warm, and get ready for another tremendous World Class Steel season.

Sincerely,

*John Soltesz*

John Soltesz,  
WCS Match Director
